fPET-2010

2010 Forum on Philosophy, Engineering & Technology

Colorado School of Mines
Golden, Colorado USA
9-10 May 2010 (Sunday Evening-Monday)
www.philengtech.org

Call for Papers - Deadline 28 December 2009 (Monday)

Background: The 2010 Forum on Philosophy, Engineering & Technology (**fPET-2010**) is an outgrowth of the Workshop on Philosophy and Engineering (WPE-2007 in Delft and WPE-2008 in London). The mission of the Forum is (1) to encourage reflection on engineering, engineers, and technology by philosophers and engineers alike and (2) to build bridges between existing organizations of philosophers and of engineers. **fPET-2010** will be held as an intensive one-day meeting on 9-10 May 2010 (Sunday evening-Monday) at the Colorado School of Mines in Golden, CO.

Abstracts (500-750 words) are invited for submission in one of three tracks:

- Track One: Philosophy (reviewing by philosophers)
- Track Two: Engineering ethics and other interdisciplinary topics (mixed reviewing)
- Track Three: Reflections of practitioners (reviewing by engineers)

All submissions will be blind-reviewed by the program committee. Those accepted for presentation at **fPET-2010** will be scheduled for 30-minute talks (inclusive of Q&A). All abstracts accepted for **fPET-2010** will be published online at the Forum website and in a printed volume available at the meeting. A volume of selected papers from **fPET-2010** will be published by a major publisher.

Instructions: Abstracts may be submitted electronically at www.philengtech.org/submission. Notification of acceptances will be sent by 1 March 2010.

Steering committee: David E. Goldberg (Illinois), Richard Evans (Cornell), Kenneth R. Foster (Pennsylvania), Domenico Grasso (Vermont), Rachele Hollander (National Academy of Engineering), Diane P. Michelfelder (Macalester College), Carl Mitcham (Colorado School of Mines), Mike Murphy (Dublin Institute of Technology), Joseph Pitt (Virginia Tech), Ibo van de Poel (TUDelft), Jon A. Schmidt (Burns & McDonnell) & Cherrice Traver (Union College)

Program committee:

Stephen C. Armstrong, AMGI-Bywater	Russell Korte, University of Illinois
Caroline Baillie, University of Western Australia	Peter Kroes, TUDelft
Mark Bedau, Reed College and Protolife	Michael C. Loui, University of Illinois
Sarah Bell, University College London	Bryon Newberry, Baylor University
Louis Bucciarelli, MIT	Steven P. Nichols, The University of Texas at Austin
Philip Chmielewski, Loyola Marymount University	Ibo van de Poel, TUDelft
Steen Hyldgaard Christensen, Aarhus University	Hans Poser, TUBerlin
Michael Davis, Illinois Institute of Technology	Donna M. Rizzo, University of Vermont
Darryl Farber, Pennsylvania State University	Viola Schiaffonati, Politecnico di Milano
Jun Fudano, Kanazawa Institute of Technology	Jon A. Schmidt, Burns & McDonnell
Dennis Gedge, Consulting Engineer	Peter Simons, Trinity College Dublin
Steven L. Goldman, Lehigh University	Karl A. Smith, University of Minnesota and Purdue U.
Alastair Gunn, University of Waikato	Mark Somerville, Franklin W. Olin College of Engineering
Deborah G. Johnson, University of Virginia	John P. Sullins, Sonoma State University
Sherra E. Kerns, Franklin W. Olin College of Engineering	Herman T. Tavani, Rivier College
Billy V. Koen, The University of Texas at Austin	Pieter Vermaas, TUDelft

Forum Co-Chairs: David E. Goldberg (deg@illinois.edu) & Diane P. Michelfelder (michelfelder@macalester.edu)
Local Arrangements: Carl Mitcham (mitcham@mines.edu); **Web & Technology:** Xavier Llorà (xllora@illinois.edu)

Abstracts (500-750 words) due Monday, 28 December 2009
