

Hello iCommunity! It was such a joy seeing many of you at this week's iCelebration. We wish you a great final week of classes and best of luck on exams.

Save the Date:

May 8- Michael DiTullo's presentation
May 10- Deadline for NUS Summer Programme application

National University of Singapore- Summer Program Opportunity

The NUS Entrepreneurship Centre (NEC) will be holding its 5th annual Summer Program from July 11-24, 2010. This two week program will be conducted by lecturers from the National University of Singapore and will be held in English. Participants in the program will have the opportunity to **attend guest lectures by government representatives, visit various locations around Singapore, participate in group activities with students from NUS and speak with government officials and entrepreneurs.**

Topics for the summer program include:

- People, Politics and Culture of Singapore
- From Third World to First: Economic Development of Singapore
- Human Resources Development Strategy in Singapore
- Public Sector Management and Public Policy in Singapore
- Enterprise Development in Singapore
- Entrepreneurship Development in Singapore
- Entrepreneurial Venture Creation : From Idea to Business Plan

The application deadline for the NUS Summer Program is **May 10th** and more information can be found [here](#).

Michael DiTullo's "Head First: Transitioning from Student to Professional"

Whether you're into design, or just really like shoes, come listen to Michael DiTullo speak! DiTullo holds a BFA in Industrial Design from the Rhode Island School of Design (RISD). He has done work for a diverse group of clients including Nike, Brand Jordan, and Burke Built Motorsports. He is currently the design director of One Star footwear at Converse. DiTullo is also a long time contributor to the design website Core77.com. He's one of the most well-respected and well-known designers out there! This presentation will take place Saturday, May 8th in room 62 (basement) Krannert Art Museum at 11am. To learn more about DiTullo and his work, visit <http://www.michaelditullo.com/Design/DESIGN.html>.

UIUC grad looking for self-motivated, clever engineers for employment at start-up

A 1997 UIUC grad, Jean VerSchave, is in search of self-motivated, clever and hard-working engineers to assist with a new start-up company. VerSchave graduated from the EE/CS department and worked for Motorola after graduation before moving into a startup space. She is hoping to recruit UIUC grads and

undergrads to help her in her most recent start-up activity and is flexible with hiring. Both part time and full time positions are available and if interested, email Jean VerSchave, jeano@jeano.net.
